*Inspiration does exist,
 but it has to find us
 already working!*

Greetings from Jackson Center Schools!

It is crazy to think that we are nearing the end of the 1st quarter, but that is the reality. With that comes the transition from summer to fall and we have been blessed with one of the most beautiful and enjoyable autumns in years. I hope all of you have had a chance to get outside and enjoy it.

In normal years the state report cards are issued in the summer or the beginning of the school year. This year, because of all the changes due to Covid, they were just recently released. They definitely look a little different because there were no official grades issued in each of the categories. However, each district could see if they improved, stayed the same or actually dropped in their student achievement. As I have stated many times, state test scores are NOT EVERYTHING, but they are important in helping to determine if there is academic growth in our students and if they are prepared for their next step in school or in life. I am happy to report that Jackson Center students and staff showed **definite growth** from the last time the students took a state test in 2019. Sadly, we were one of the few school districts across the state and even in our region to show growth. We all learned or we were reinforced with the idea that KIDS NEED TO BE IN SCHOOL. Many of the districts across the state saw dramatic drops in their achievement scores and it is not difficult to figure out that the ones that dropped the most were the districts that spent more of their time trying to teach in a remote fashion. Unfortunately, there are long term ramifications to a student missing a week or a month, much less an entire year. As you all know, it is incredibly difficult to re-create positive habits after so much time off so the next few years will be tough on many districts across the country.

With that being stated, on behalf of the school board and our staff, THANK YOU for trusting us and sending your student to school as much as possible both last year and this year. Below is a piece of a chart that I recently shared with staff showing our growth over the past two years. We only grew a half a point in achievement, but that is significant when districts were falling by 5, 10, 15 or 20 points. As a result, you will see that we jumped from being ranked 132nd (out of 608 school districts) in achievement to 38th.

THANK YOU again for making the choice for your kids to learn and thrive in a normal environment. If you are interested in looking at our report card more in depth, here is the link: <https://reportcard.education.ohio.gov/district/049809>

If you want to discuss the comparisons to other districts, there is an area on Ohio Department of Education website that will help you develop a spreadsheet or simply give me a call.

Message from the High School Principal

The leaves are falling and the air is cooling. It is hard to believe that the first quarter is almost over. The staff and students have worked extremely hard with another year of transitions due to COVID. Both have been very flexible and accepting, overcoming and persevering through it all. Our extracurricular activities are happy to have fans back in the stands to cheer them on and hopefully the masks are now a thing of the past.

With the isolation of COVID, I believe it is even more important for the students to get involved in their school activities, clubs, sports, etc. to allow students to find others with similar interests, build connections, and make their academic career more enjoyable. Fortunately Jackson Center has a variety of opportunities for students to get involved regardless of their interests, I am confident there is something for everyone. It may take stepping out of their comfort zone, but the benefits of becoming involved will far outweigh the drawbacks.

Feel free to stop in to discuss further if you would like or email me at j_reese@jctigers.org

September 12, 2021 FFA Orientation

On Sunday, September 12, 2021, FFA Orientation for incoming 8th grade students was held in the FFA room from 5-6 p.m. Students were sent flyers inviting them to come to the event, and if possible, to bring a parent as well. There were 13 students in attendance, and 7 parents in attendance. The function was supervised by all 9 FFA officers. A slideshow about FFA was created to introduce members to the officer team and to highlight all of the opportunities FFA can provide. Topics discussed included CDE's, SAE's, how to get involved in FFA, what FFA can do for you, and descriptions of each of the officer positions. While this was taking place, Mrs. Whetstone spoke with parents about FFA and the opportunities that students have to be involved both inside and outside of the classroom. After the presentation was over and the parent meeting was over, the students were invited to participate in mock CDE stations that were set up. The parents were also invited back to the classroom to watch. The purpose of these stations was to familiarize students with various competitions they could participate in in the future. The mock competitions were led by the officers. The five competitions were soil judging, poultry judging, agricultural mechanics, aroma identification, and outdoor power. Each station lasted approximately 5 minutes. After the stations were completed, cookies were served, and a group picture was taken.

Several other county schools such as Houston, Anna, and Fairlawn were also in attendance. Preble County Soil and Water Conservation Scientist BJ Price was present at the practice. He assisted in identifying soil features and provided the answers for the pits. There were three practice soil pits in the field, and students were split into groups to judge the soil quality. Factors considered in the judging process included slope, texture of the topsoil, subsoil, and substratum layers, depth to bedrock, ribboning, and depth to restrictive soil features. Students walked around and gathered their results, and at the end, the answers were given.
